1. Introduction

These Guidance Notes are intended to assist Applicants in understanding the requirements for requesting and receiving funding support under ***Measure 1 – Restoration of assets of artistic and cultural value*** of the MAGF Local Development Strategy (LDS).

Applicants are advised to familiarise themselves with these Guidance Notes prior to filling in and preparing the Application Form. The Guidance Notes, Application Form and all annexes and other documentation are available at www.galmajjistrat.com.

Applicants are reminded to check that they referred to the latest guidance notes as available on the Foundation's website, and that they have filled in the latest available version of the application form that is available for download from the website. Only the latest version at the time of application will be accepted.

2. Rationale for Intervention

This measure falls under Objective 1 of the MAGF LDS – Development of the cultural landscape, social heritage and tourism product of the rural territory.

The analysis of the MAGF territory and findings from the consultation exercise have shown that several stakeholders own, or have access to, items and artefacts with a clear historical and cultural link to the territory which would benefit from conservation and restoration practice. Given the cultural and historical value of these artefacts, their conservation and restoration and subsequent inclusion in educational programmes, heritage trails and other tourism activities is expected to provide opportunities for the promotion of local culture and identity, fostering job creation and facilitating the diversification of the economy of the rural areas making up the MAGF territory.

This measure supports the one-time restoration of these small-scale items, while also promoting the cultural and historical identity of the MAGF territory by opening up opportunities for educational and tourism activities related to the artistic, cultural, historical and inspirational value of the restored items.

3. Scope and Objectives of the Measure

This action supports the restoration of small-scale sites and objects of significant cultural and historical value to the territory, in conjunction with the development of educational and tourism activities relating to the subject of restoration.

It is to be noted that projects that do not include the associated educational and/or promotional and/or information activity with a related minimum expenditure within the limit stipulated, shall not be considered for support.

Based on the analysis of the territory and the findings of the consultation exercise, the following list presents best estimates of the type of operations that are likely to be supported through this measure:

- the conservation of paintings of significant artistic and historical value in conjunction with the development of educational information dissemination about the artefact and its cultural and historical significance;
- the restoration of objets d'art, located within the territory and which have a religious, cultural or historical significance to the community, together with their inclusion in a heritage trail;
- the restoration of local statues or street niches and their inclusion in a heritage or tourism trail;
- the restoration of historical archives found on the territory accompanied with opportunities for youth education;
- the restoration of chapel facades and shrines, and the exhibition of sacred art and historical objects to the youth/ community;
- the conservation/restoration of features of historical importance within sites that are accessible to the general public e.g. public gardens;
- the restoration of sites and rural structures of architectural and/or archaeological importance, such as military rooms, parts of fortifications, and rooms of historical and/or traditional importance;

The PSC may request the services of a technical expert to assist the whole evaluation process. The PSC reserves the right to request additional information and further clarifications on the project as part of the selection process.

15. Ranking of Projects and Selection Process

The PSC will proceed to award marks to each proposal based on the information submitted in the applications and provided through clarifications (where applicable). In order to qualify for selection, the proposal needs to obtain a total of at least 50% of the total marks of the general and measure-specific selection criteria.

A preliminary list of the proposals containing selected, on reserve and failed applicants together with their respective score shall be drawn up. Furthermore, the PSC reserves the right to request project re-dimensioning in special circumstances.

The preliminary result shall be published on MAGF's official website⁴. In addition, a notification letter shall be sent to applicants informing them of their right of appeal in cases where applications fail to qualify.

16. Unsuccessful Project Proposals

In the notification letter sent to the applicant, reasons why the project was not selected shall be provided. The applicant shall have the right to appeal in writing through a registered letter within 5 working days from receipt of the email / letter of notification of result sent by the LAG.

The appeal is to be addressed to the Chairperson of the Project Selection Appeals Board (PSAB). The PSAB is an independent Committee set up to review in an autonomous way any appeals lodged. The PSAB will be composed of a minimum of three (3) individuals with a Chairperson chairing the appeals process. The appellant is required to sustain the clarifications provided by including justified reasons backed by necessary supporting documentation / testimonials.

The applicants wishing to lodge an appeal must send a registered letter addressed to **"The Chairperson", Project Selection Appeals Board of MAGF, 12, Triq it-Tullier, Attard, ATD 1631**, within 5 working days from when the applicant receives the notification letter.

The letter should include detailed reason/s of why the appeal is being made, supported by any relevant documentation/testimonials.

The decision of the Appeals Board **is final**, and the applicant cannot contest this decision. The DC must notify in writing the decisions to each appellant. The appeals procedure shall be published on LAGs website.

17. Publication of Final Result

Upon completion of the appeals process, MAGF shall publish the final result of the projects eligible for financial support on its website and notice board.

The successful applicants will receive a 'Letter of offer' following the publication of the Final list of results. The applicants will be required to send a 'Letter of acceptance' (a draft copy of the Acceptance letter will be sent with the letter of offer) and a Bank Payment Form within 10 working days from the receipt of the 'Letter of Offer'.

If, after 10 working days, the LAG does not receive the letter of acceptance, it will be considered that the applicant is no longer interested in undertaking the project and funds will be relocated according to the discretion of the LAG.

Should the beneficiary accept the offer, eligible period of expenditure should start from the date of submission of application (*Refer to Article 60 of EU Regulation 1305/2013*).

If the applicant accepts the offer, the bank payment form should be completed and referred to the Front Office of the ARPA. The form must be endorsed by a bank official and should show the IBAN of the applicant.

18. Procurement Procedures

Given that the eligible applicants under this call comprise of Local Councils, the Procurement Guidelines issued by the Department for Local Government must be strictly adhered to. An architect's Bill of Quantities (BOQ) with details is to be presented. This has to be prepared by an architect appointed by the applicant and submitted as part of the application submitted.

In the case of natural persons and Voluntary Organisations and, where Public Procurement Regulations allow, Local Councils, a minimum of three (3) comparable and independent quotations should be submitted for each line item. It is being suggested that more than three (3) quotes are obtained. **However, only one quotation is required at application stage.** Applicants are then obliged to present three (3) comparable valid quotations for each line item prior to the project implementation, together with an

adjudication report. The applicant should send a letter or email to the chosen and rejected suppliers upon issue of the adjudication report, informing them of the organisation's decision.

It is being further suggested that, for comparability purposes, a financial bid form is issued by the Applicant and presented to the bidder. The bidder would quote the price on the bid form accordingly. The financial bid form must include the signature of the bidder. A copy of the Financial Bid Form can be found in Annex 2 of the Application Form.

Notwithstanding the above, it is to be specified that quotes issued by bidders on their letterhead are also accepted, as long as the description of the items required from the applicant is comparable with the other quotes of the particular line item.

If the cheapest quotation is not chosen by the applicant, a justification would need to be provided. The applicant is to note that in such cases, the amount of funding co-financed through the EAFRD (2014 – 2020) can only be based on the cheapest quotation obtained.

Should for some reason three (3) quotations cannot be obtained by the applicant, a justification why, should also be provided by the applicant and it would be the Paying Agency's prerogative, after consulting with the MAGF, whether to accept such justification or not.

In the case of infrastructural works for Voluntary organisations a Bill of Quantities (BOQ), has to be presented at application stage. This has to be endorsed and dated by a warranted architect appointed by the applicant. Nonetheless, applicants submitting a BOQ are still obliged to present three (3) comparable quotations for each line item prior to the project implementation.

It is to be noted that any financial declarations / certificates need to be dated not more than three months prior to the date on which the batch closes.

In accordance with the Public Procurement Regulations, expenditure relating to economic operators convicted of a criminal offence are considered ineligible for funding and such expenditure will not be reimbursed by the Agriculture and Rural Payments Agency.

Applicants are guided to refer to the "Guidelines on the Submission of Payment Claims related to Investment Measures" issued by ARPA for details related to the required content and format of quotations and other procurement procedures; these guidelines may be downloaded at the below link:

<https://agriculture.gov.mt/en/arpa/Documents/guidelines/investmentMeasuresPaymentGuidelinesFinalEN-V3.0.pdf>

19. Contracting with Beneficiaries

Contracting shall be undertaken by the MAGF with the beneficiaries. Contracts are to be signed by the LAG's Chairperson (or any formally authorised delegate) and a legal representative of the beneficiary.

The contract shall be given to the beneficiary for verification prior to it being signed. The contract shall be signed in two originals (one for the LAG and another for the beneficiary). Copies must be maintained in a secure location by the parties.

20. Payment

The Agriculture and Rural Payments Agency (ARPA) reserves the right to make an advance payment of up to 50% of the total eligible cost of the project. The issuing of an advance payment is subject to the submission of a financial guarantee issued by a recognized financial institution equivalent to 100% of the amount eligible as advance payment.

The facility of interim payments will be provided by the Agriculture and Rural Payments Agency (ARPA). Interim payments together with the advance payment (if applicable) will make up 80% of the total eligible value of the grant agreement.

Interim payments must be preceded with a submission of a request for reimbursement and financial documentation (including invoices and receipts).

In case of infrastructural works a provisional certificate of works prepared by an engineer/architect must also be presented.

The final payment of the remaining 20% of the total eligible cost of the project will be claimed following the completion of the works and submission of the request for reimbursement together with the necessary financial documentation (including invoices and receipts, and a provisional certificate of works prepared by a warranted architect).

Official certification by the architect appointed by the beneficiary is required for settlement of final payment (in case of infrastructural works).

The final payment will be affected once an on-the-spot-check is carried out by MAGF and ARPA and adherence to the contract is confirmed.

The main applicants must present a payment claim through the LAG, so that the necessary verifications and controls are undertaken prior to submission to ARPA for processing.

Claims are to be presented as outlined in ARPA's payment guidelines available at:

<https://agriculture.gov.mt/en/arpa/Documents/guidelines/investmentMeasuresPaymentGuidelinesFinalEN-V3.0.pdf>

In case of irregularities, penalties and sanctions may be applied. These will be deducted from eventual payment claims or through requests for refund of financial assistance paid by ARPA.

The project must be completed, and payment claims submitted by not later than 31st May 2025.

The final claim for reimbursement of funds allocated to the project must also be submitted within this deadline.

21. Extension to Contract Timeframes

Should the beneficiary require an extension to the timeframe stipulated in the application form and contract, a request is to be submitted to MAGF. The form to be used in such case is the '*Change Request Form*' and the request should be made before the actual expiry of the original timeframe.

A request for approval of an extension of the time required in order to terminate the project is to be backed by written justified reasons. Cases related to poor project management will not be accepted. Following review of the request by the MAGF, the final decision will be sent to the beneficiary in writing. Should an extension be approved, the period of extension shall be determined by MAGF.

In cases where amendments to the contract are required, the beneficiary must submit a *Change Request Form* to MAGF prior to the changes being actually implemented.

If a request for changes to the contract is submitted after these changes have actually taken place (ex-post), the changes will not be eligible for funding and, depending on the extent of the changes, this may lead to the whole project being considered ineligible.

The written request for changes must indicate the changes required, the necessary justification and relevant supporting documentation.

If the applicant wishes to change the specification of the investments, a written request prior to such changes must be sent to MAGF. For example, funding is approved for the purchase of Model X of a projector and following the contracting, the applicant wishes to purchase Model Y of this projector as the previous model is no longer produced / available, then a request for change must be submitted and the applicant must wait for a reply from the competent Authority.

MAGF will review the request and if the proposal does not affect the nature of the project and remains in line with the objectives of the Measure, the changes may be approved. A notification letter will be sent to the beneficiary in writing and an addendum to the contract shall be carried out and signed between all parties.

If the request for changes is not approved by MAGF, the beneficiary will receive a notification and will be requested to confirm whether the project as stipulated in the contract will be completed or withdrawn.

22. Failure to comply with the contract

Failure to meet the commitments stipulated in the contract shall result in sanctions applied to the amounts committed or paid. The Agriculture and Rural Payments Agency, Internal Audit and Investigations Department (IAID), the European Commission (EC), the European Court of Auditors (ECA), the European Anti-Fraud Office (DG OLAF) and/or the Managing Authority reserve the right to undertake further checks and controls and to recover any funds from the beneficiary by withholding the bank guarantee in case of advanced payments or to request the beneficiary to refund financial assistance paid out by ARPA.

23. Project Sustainability

It is to be noted that in line with Article 71 of Regulation 1303 / 2013, in the case of an operation in infrastructure or productive investment, the applicant shall repay the contribution from the EAFRD Funds if within (5) years of the final payment to the beneficiary or within the period of time set out in State aid Rules, where applicable, it is subject to any of the following:

- a cessation or relocation of a productive activity outside the programme area;
- a change in ownership of an item of infrastructure which gives to a firm or a public body an undue advantage;
- a substantial change affecting its nature, objectives or implementation conditions which would result in undermine its original objectives.

24. Publicity

In case of information and publicity, the main beneficiaries must abide by the provisions of Part 2 of Commission Implementing Regulation (EU) No. 808/2014, as well as any Publicity/Visibility Guidelines that may be provided by the MAGF through MA.

In order to meet the requirements of the EAFRD Regulations, beneficiaries must ensure that adequate publicity is given to the project with a view to:

- Making potential participants aware of the opportunities afforded by it;

- Making the general public aware of the role of the Community in relation to the project;
- Ensure transparency of the assistance concerned.
- As an example, materials used by the Beneficiary and major correspondence, including contracts signed with third parties must include any acknowledgement of EAFRD support.
- Any publicity material, such as advertisements, billboards and information leaflets about EAFRD co-financed projects must acknowledge this support.
- Publicity of individual projects must be incorporated into the project budget.
- Applicants are to be cautious when determining publicity actions for the project.
- Applicants should also ensure that the project benefits from any free publicity and that anything that will be proposed to be funded under the project is either obligatory or adds value to the results of the project, taking into account the value for money principle. In this regard, publicity measures of individual projects should take into account the nature of the project and must be relative to the size and objectives of the project.
- The Beneficiary should note that publicity may only be used to increase awareness of what EU funds are used for and to disseminate results. Publicity measures undertaken must be project specific.
- Publicity and information measures must not be used as a marketing tool to promote an organisation, its products, services or infrastructure. Where a project includes an element of marketing, this must be used to complement but not replace the project's obligatory information and publicity measures.
- Marketing efforts should be included as a separate activity in the project and as a separate budgetary allocation and justified accordingly. The Applicant may also make reference to the 'Visual Identity Guidelines' that may be downloaded from the below link:

<https://eufunds.gov.mt/en/EU%20Funds%20Programmes/European%20Agricultural%20Fund/Pages/Links%20and%20Downloads/Publicity.aspx>

25. Data Protection

MAGF has the duty to protect data provided in the Application Form. Any queries regarding Data Protection matters should be brought to the attention of the MAGF. The officer in charge can be contacted by e-mail on: galmajjistr@gmail.com

26. Retention of Documents

The applicant is to retain all documentation in a project file (required to ensure any adequate audit trail) safely stored.

All documents pertaining to the implementation of the project must be retained by the applicant for at least five (5) years following the end of the programming period. This is to facilitate audits and the ex-post evaluation of the programme.

27. Basic Terms and Conditions

If a project application is successful, EU Funds will be offered on rigorous terms and conditions, which will be stipulated in the Grant Agreement. In accepting the offer of EU Funds, the Applicant will take on responsibility for compliance with these terms and conditions. These include requirements to demonstrate satisfactory progress in delivering what the project has set out to achieve and adherence to an agreed pattern and time schedule of spending. Failure to meet these conditions and any false information given in the application may lead to the EU Funds being withdrawn and any EU Funds paid being recovered from the Applicant.

All projects are subject to management verifications, audits carried out by auditors (including by the Internal Audit and Investigations Department (IAID), the European Court of Auditors and the European Commission (EC) auditors), evaluations (programme evaluators) and inquiries by DG OLAF. Officials from the MAGF, ARPA and MA and other horizontal stakeholders would also have rights of access to the project and all relevant documentation. Such officials could carry out spot checks (physical and documentary) to establish that sufficient progress is being made in line with the Grant Agreement and that the Beneficiary has put in place systems of management and control that ensure the efficient implementation of the project in line with the relevant Regulations and Procedures.

If the project is selected for funding, the Applicant would be bound by the principles of transparency, good governance, sound financial management and the relevant national regulations.

By submitting the Application, the Organisation is giving its automatic consent to publishing (including on the internet) the details of the Organisation and the project (including budget and implementation period) in line with the obligations in the relevant Council and Commission Regulations.

The applicant should also be aware of the durability clause enshrined in Article 71 of Regulation 1303/2013, which states that an operation retains the contribution from the EAFRD only if that operation does not, within five years from the final payment of the competent authorities, undergo a substantial modification.

The applicant is to declare whether an application for part or all of the proposed project has been submitted for assistance under any other Community Source including European Regional Development Fund (ERDF), Cohesion Fund (CF), etc. If in the affirmative the applicant is required to indicate all relevant details.

The applicant organisation should note that if the project is accepted, the applicant will be automatically giving his/her consent to have all the documents and data related to the project, (including name of project leader and other persons relevant to the project, invoices, receipts and documents related to contracts etc...) made available to all the relevant stakeholders including third party evaluators and auditors involved in the EAFRD fund system. The LAG reminds the Applicant that it is the responsibility of the Applicant to inform any third parties (including contractors) that all data and information relating to the project will be shared with other stakeholders, local and European.

The chosen entity must ensure that all activities are carried out in compliance with applicable national and community rules and any other mandatory requirements as laid down in the Rural Development Programme for Malta (2014-2020). Failure to do so will result in penalties with respect to the grant received plus interest accrued according to the law.

In case where a Planning Authority (PA) permit is required, the valid PA permit and approved drawings or the application submitted to PA and related drawings have to be presented as part of the documentation with the application. Grant agreements for projects in need of such permits will only be signed once the valid PA permit is granted. MAGF reserves the right to reject any project if the PA permit is not presented in time to allow the project to be completed by 31st May 2025.

Once the applicant endorses the contract with the LAG, the applicant will be automatically be giving its consent to the publication of data related to the payments that the ARPA will eventually be affecting. This will be in line with Regulation (EU) 1306/2013 of the European Parliament and of the Council. The regulation requires all Member States of the European Union to publish details of beneficiaries, who received payments under the CAP.
